ABSTRACT

The study was done to determine the factors that affect procurement in Kenya. It was done at the Kenya commercial bank in the Nairobi CBD. The purpose of the study was to check into the factors affecting procurement, present situation of procurement in Kenya and to find solutions to the factors inflicting procurement. The main objective of the study is to lay benchmark information about the factors that are affecting procurement in Kenya. Questionnaire was used to and will be taken to the bank be taken to the bank by the researcher and to be picked after a 1 week period. Other information of demographic nature will also be gathered from published sources, public journals and agencies. The findings were that Kenya commercial bank adopted a centralized procurement procedure, training levels of procurement officers was high and that the bank had adopted the use of information communication technology in the procurement procedure. The researcher recommended the need for continued training of procurement officers to increase on their procurement competencies.
